CAREER OBJECTIVE

MBA candidate specializing in Marketing & Analytics with good communication, research, and relationship-building skills. Interested in analytics, understanding customer needs, and creating positive product experiences. Motivated to contribute to a fast-paced SaaS environment through clear communication and data-backed insights.

WORK EXPERIENCE

BFSI Analyst Relations Intern - Tata Consultancy Services (TCS) **May 2025 - June 2025**

- Mapped 160+ key industry analysts and their coverage areas in the BFSI domain and across Tech domains
- Conducted Sentiment Analysis using Python on vendor evaluation reports to extract actionable insights.
- Performed competitive intelligence for 7 peers by benchmarking to support strategic positioning.
- Created a final workflow for the Sentiment Analysis for evaluating the vendor assessments.

Template Research Intern - ShorterLoop **Feb 2025 - April 2025**

- Researched templates & frameworks from 10 product management software (Jira, ProdPad, Notion, etc)
- Developed structured 30+ product management templates for the ShorterLoop platform across functions.

PROJECTS

Dissertation - Influence of Product Design on Purchase Intention in Sustainable Personal Care Products

- Researching how product design elements influence consumer buying behavior in sustainable personal care products.

AI Resume Analyser

- Developing an AI Resume Analyzer, a full-stack web app that uses AI to analyse resumes, match job descriptions, and review LinkedIn profiles, powered by Flask, Groq API, and JavaScript.

Leave Management System - Hostel Dispensary

- Developed a digital Leave Management System for Hostel Dispensary, replacing manual logbooks with a responsive web application for data entry, and automated record generation using AppScript & Sheets.

Smart IV Drip Monitoring System (IoT)

- Built an IoT-based IV monitoring system with real-time tracking and automated alert notifications.
- Reduced manual monitoring and time by streamlining caretaker tasks and improving patient safety.
- Tech Stack used - Arduino, Frontend Development, Firebase(backend)

ACCOLADES

- Proficiency Award for outstanding academic performance in BCA (2022–23).
- Author of the Tamil poetry book Ilaigalin Narambugal and contributor to four published anthologies.
- Conference Presenter on Cultural Diplomacy and Soft Power in G20 Countries (2022)
